

# Major Guide: Supply Chain Management

## Guidelines

### *Major Coursework*

As a Supply Chain Management major, students should adhere to the following criteria in major course selection for study abroad:

- 3 out of 9 credit hours of Supply Chain Management elective coursework can be taken abroad
- Supply Chain Management elective coursework must reflect the focus of the major
- Coursework must be upper division (300 - 400 level equivalent)

Students should meet with an International Programs and Study Abroad (IPSA) advisor to receive final approval for Supply Chain Management coursework.

### *Non-major Coursework*

Other types of courses available for study abroad include:

- General education (ethics, arts & humanities, non-business electives)
- Pre-business core (MGT 202, ECON 211 & 213, STAT 201 equivalents)
- Business core (BULW 301, FINC 301, BUAD 332 equivalents)
- Foreign language (HCB requires completion through intermediate level)
- Collateral / concentration

## Course Options

The following are examples of possible major elective courses available.

- Global Supply Chain Management

## Timing

Students interested in pursuing Supply Chain Management elective coursework while abroad should consider:

- Students are only able to take Supply Chain Management elective coursework after completion of their tracking courses, which is typically after Sophomore year.
- Supply Chain Management majors with a collateral are required to complete a major course progression during their last 4 terms. In this case, students studying abroad for a semester will likely need to complete summer courses at UT to remain on track for graduation.
- Supply Chain Management majors with a concentration are required to complete a major course progression over 3 terms. In this case, students studying abroad for a semester with this option typically do not need to complete summer courses at UT.
- Supply Chain Management majors are able to go abroad after their first semester of Freshman year if they are only taking general elective courses or Pre-Business core courses.
- Students should not study abroad their final semester at UT if they plan to graduate in May due to the delay in transcript processing.

## Selecting Your Collateral / Concentration

Another option of courses to take abroad are through your collateral/concentration. Please refer to your Haslam Student Handbook for all possible combinations. The International Business (IB) concentration offers the most flexibility in course availability. Please note:

- All 12 credit hours of IB elective coursework can be taken abroad.
- Business coursework that is international in scope and upper division (300-400 level) can be counted as an IB elective.
- IB courses give students the opportunity to pursue country or region-specific coursework that offers unique insight into international business practices.

## Next Steps

To learn more, schedule an advising appointment with an HCB International Programs and Study Abroad advisor through Navigate, or email [haslamabroad@utk.edu](mailto:haslamabroad@utk.edu) to start a conversation!
